

Makerspace Survey Results

How important is it to have these items at the makerspace?

Feature	Average Ranking
3D Printer	3.29
3D Scanner	3.11
Audio Mixers	3.25
Computers	4.69
Games & Puzzles	3.53
Invention Kits	3.00
Laser Cutter	3.20
LED Circuitry Kits	2.75
Legos	2.53
Screen Printing	3.25
Sewing Machines	3.02
Upcycled Items	3.15
Welding Equipment	4.04
Woodworking Equipment	3.89

What other equipment would you like to have at the makerspace?

- Ag classes
- Air conditioning
- All age club
- Anything that could allow the teaching of coding effectively
- Auto parts
- Better quality items
- Bowling
- Building blocks
- Comfy chairs and couches
- Fan
- Game development
- Graph paper
- iPads
- Kiln
- Lots of room with nice chairs and tables
- More creative or artsy items
- Outdoor basketball courts
- Paint
- Painting and collage-making
- Phones
- Pool
- Science labs
- Tablets
- Technology
- Tools
- TV/video game station
- Welding

How interested would you be in these activities?

Feature	Average Ranking
3D Modeling & Printing	3.22
Advanced Workshop Equipment	3.47
Arts & Crafts	3.15
Audio & Visual Production	3.20
Coding & Computer Programming	3.18
Drone Technology	3.20
Game Creation	3.49
Paper Crafts	2.60
Robotics or Electronics	3.49
Sculpting	2.78
Welding	3.65
Woodworking	3.76

If lessons or training sessions were provided, which would you prefer?

Option	%
Formal Classes	38.18
Informal Orientation	20.00
One-on-One Instruction	38.18
Other	3.64

Other: Formal class with one-on-one instruction; Technology programming classes

Do you have a specific project in mind to make?

- 3D printing
- Artistic works
- Book
- Coding
- Construction
- Disassembling and put a computer back together
- Games
- Home improvement projects
- Make a computer game
- Pottery
- Recycled book crafts
- Robots
- Welding
- Woodworking
- World building for a game

"I simply desired to create. I have a lot of ideas and no outlet. I've decided that, while the most taxing to create, I want to make games as my outlet for creativity."

Any other comments, questions, or suggestions?

- Coding
- Get a good ag teacher if you do get back into the ag/woodworking and welding. Get someone with that kind of stuff in a background. Get someone that will take time to help kids one on one. Get someone who will care for others and is just like a good guy.
- Have a game room/class
- How often will we be able to use it?
- I like the idea.
- I like the idea a lot, it'd be really neat if it took off.
- I think if we would just get higher quality items (it might be more expensive, but it is more beneficial) we wouldn't deal with items breaking all the time.
- Make something happen, let's stop looking and start working.
- Money spread equally, not just to male sports.
- Origami
- Staff
- That's why we need to 3D printer.
- We should have more free/fun days.
